Loop Forming Tools

### Set-up Bracket/ F-110

Used with a 45° corner block, cable is supported as it comes off the reel and follows the path of the strand. The bracket is fabricated of 5/16" x 2" structural hot-rolled steel. The design is such that the bracket swivels freely under the strand clamp (not provided) effectively compensating for situations where the trailer cannot be set in line with the path of the strand. Wt. 6 lbs.
