#### Fall-Arrest Harness - Klein-Lite®

*Lightweight polyester construction for comfortable all-day use, and improved chemical resistance compared to nylon. One "universal" size fits most people.*

*Easy-connect leg buckles with friction-slide adjusters for quick engagement/disengagement.*

*Straps have friction-style buckles for adjustments over a continuous range of sizes.*

*Friction slide adjusters hold shoulder straps in place so the user does not need to readjust for each use.*

*Color contrasting shoulder and leg straps simplify putting harness on.*

*Fall-arrest D-ring with roller. Drop-forged circle D-ring has corrosion-resistant finish, wear-minimizing roller, and is proof-loaded to meet OSHA regulations. Easily adjusts for proper fit and function.*

*Seat strap adds extra comfort and support.*

*Fall-arrest harnesses are designed to arrest free falls and distribute impact forces over thighs, pelvis, chest and shoulders as required by OSHA.*

*Identity and warning tags and/or labels are reminders of proper application and inspection procedures. The Klein name, model, date of manufacture and OPE-system application symbol(s) are permanently and clearly inscribed on these tags and labels.*

*Harnesses are certified and compliant with ANSI and CSA requirements.*

[Always follow the A-B-C rule when using.](#)
