Reusable!

Polywater®
FST™ Duct Sealant

Water Block Foam Kit
A Multi-Use, Quick-Setting
Two-Part, Foam-Base
Duct-Sealing System

- Seals water, dirt, oil, gases, rodents, or other contaminants out of conduit/duct
- Cured foam is strong, resilient and chemically resistant
- Can hold 15 feet water-head pressure over an extended period of time
- Will tolerate cable movement
- Foam expands and cures quickly even when water is present
- Kit seals up to (5) 2” (50 mm) ducts
- Two-barrel cartridge is resealable, no waste
- Two-part foam is mixed in nozzle as it is injected -- no mixing required
- Cured foam is semi-permanent and can be removed
- No known effects on common cable and wire jacketing compounds.

At left, a clear duct sample of properly constructed FST™ Duct Seal. At right, cured FST™ Duct Sealant. Check out the Application Instructions at:

American Polywater® Duct Seal/Water Block Foam Kit

**FST™ Duct Seal** is a “closed cell foam” which is **superior** to “open cell” spray canned foams. The kit contains a two-barrel cartridge filled with a two-part foam base, which is mixed in equal parts as it is pushed through the mixing nozzle. When mixed and injected, the foam expands and hardens, keeping water, acids, greases, gases, insects, and rodents, etc., out of the conduit. The foam has good wetting and adhesion to metals, plastics, and concrete. A separate, reusable ratchet application tool is used to inject the foam.
