

CPT DROP CABLE STRIPPING TOOLS

THE CPT ADVANTAGE

- Three operations in one step
- Hardened tool-steel blades
- Factory-calibrated strip-back dimensions
- Patented clean-out feature
- Replaceable cartridges
- Color-coded bodies and cartridges

Each CPT tool is factory-calibrated to remove the right amount of cable jacket, cut the braid and dielectric to the proper length, and expose the center conductor in one smooth operation.

APPLICATIONS

The CPT Series of cable stripping tools strip the jacket and cut back the braid and dielectric to the proper dimensions on braided and braid-replacement drop cables, including standard (single) through quad shielded RG-6, -59, -7, and -11 cables. CPT tools are also available for Belden, SCTE approved Commscope and Times Fiber Mini Coax, Plenum, Commscope® 59 Quad-series Headend, and Times Fiber TXFF cables.

Please see [CPT Stripping Tools for Wireless Cables](#), [CPT Stripping Tools for Fiber Cables](#), or [Super CPT Stripping Tool](#) for other CPT stripping applications.

SPECIAL FEATURES

An Ergonomic, Efficient Design

The CPT body is comfortable to hold and easy to operate with either hand. Because jacket, braid, and dielectric are cut with one simple motion, cables can be prepared quickly and easily.

Hardened, Tool-steel Blades

Made of the highest quality steel, CPT blades ensure optimum performance over a long life. Each cartridge can prepare 2,500 - 5,000 cables, depending on braid coverage.

Factory Calibration

Pre-calibrated dimensions for different applications help to ensure that jackets are stripped and braid and dielectric are cut back properly.

Patented Cleanout Feature

The patented cleanout feature of the CPT tool automatically removes excess jacket, braid, and dielectric from the tool after stripping.

Color-coded Bodies and Cartridges

Color-coding of the tool bodies and replaceable cartridges makes it easy to identify the right tool for the application. The cartridges snap easily into place.

Lightweight Durability

Rugged enough for the toughest jobs, lightweight CPT tools offer consistent, precision performance even under harsh conditions.

WARRANTY

All Cable Prep brand tools are warranted to be free from defects in workmanship and material. The plastic CPT body has a lifetime warranty.

ORDERING INFORMATION

Coax Cable: RG-6 & RG-59

Cable Type	Braid Exposure (inches/mm)	Center Conductor Exposure (inches/mm)	Tool Part Number	Tool Image	Compatible with the following replacement cartridges:
6 & 59	0.250 / 6.4	0.250 minimum / 6.4 minimum	CPT-6590 CPT-6590-SINGLE CPT-6590S		RBC-6590

For more information or to place an order, please contact Supply Solutions at 866-978-7759. Courtesy of Cable Prep/Ben Hughes.

6 & 59 Plenum	0.250 / 6.4	0.250 minimum / 6.4 minimum	(w/stop) CPT-6590-1S (w/stop)		RBC-6590PL
6 & 59	0.125 / 3.2	0.250 with stop / 6.4 with stop	CPT-1250		RBC-1250
TriShield 6	0.250 / 6.4	0.250 / 6.4	CPT-6590TS CPT-6590TS-1		RBC-6590TS
CommScope 59 Quad Series Head End	0.250 / 6.4 (Cuts off first layer of braid)	0.250 minimum / 6.4 minimum	CPT-59HEC2		RBC-59HEC2

Coax Cable: RG-7 & RG-11

Cable Type	Braid Exposure (inches/mm)	Center Conductor Exposure (inches/mm)	Tool Part Number	Tool Image	Compatible with the following replacement cartridges:
7 & 11	0.250 / 6.4	0.250 minimum / 6.4 minimum	CPT-1100 CPT-1100-SINGLE		RBC-1100
7 & 11 Plenum	0.250 / 6.4	0.250 minimum / 6.4 minimum	CPT-1100PL		RBC-1100PL
7 & 11	0.125 / 3.2	0.250 minimum / 6.4 minimum	CPT-1100-125		RBC-1100-125

Mini Coax

Cable Type	Braid Exposure (inches/mm)	Center Conductor Exposure (inches/mm)	Tool Part Number	Tool Image	Compatible with the following replacement cartridges:
Belden	0.250 / 6.4	0.250 minimum / 6.4 minimum	CPT-7538		RBC-7538
Commscope and Times Fiber (SCTE Approved)	0.250 / 6.4	0.250 minimum / 6.4 minimum	CPT-7691		RBC-7691

Flexible Feeder

Cable Type	Braid Exposure (inches/mm)	Center Conductor Exposure (inches/mm)	Tool Part Number	Tool Image	Compatible with the following replacement cartridges:
Times Fiber Flexible Feeder (TXFF) and CommScope F50	0.250 / 6.4	Adjustable	CPT-TXFF-250 This tool was replaced by the <u>Super CPT</u> Part Number SCPT-TXFF or SCPT-TXFF-6		RBC-TXFF-250 RBC-6590

Note: CPT Stripping Tools for other than drop cables are listed under [wireless](#) and [fiber](#) applications.

Cable Prep brand tools are available worldwide through [Authorized Cable Prep Distributors](#)

Note: The CPT Series works with all single through Quad shielded RG -6, -59, -7 and -11 cables.

SPECIFICATIONS

Number	Weight (Ounces)	Weight (Grams)	Tool Color / Cartridge Color	Blade Cartridges Supplied with Tool
CPT-6590	2.9	82	Yellow / Black	One installed / One spare
CPT-6590-SINGLE	2.2	64	Yellow / Black	One installed
CPT-6590S	2.9	82	Yellow / Black	One installed / One spare
